

Directions for use: Apply 2 ounces per acre directly to seed, in seed box or metered. When applying in seed box, mix seeds with product thoroughly to ensure complete coverage. Product does not mix with water. Compatible with many common fungicides and insecticides. For current compatibilities, contact JABB of the Carolinas, Inc at 919-965-9007.

Beauveria bassiana is a natural beneficial fungus derived from plants environmentally friendly to soils and rhizosphere residents. While other microbial organisms claim singular soil or plant benefits, *Beauveria bassiana* forms natural symbiosis for the whole plant (roots, stems and leaves), forming an integrated network that works well with plant cells, other beneficial organisms, and the environment. This symbiotic partnership elevates the plant's natural ability to resist pathogens and seasonal stressors, which

reduces necessity of single chemical solutions that can harm other living residents.

No other natural biological inoculant offers its living host compatible metabolites used throughout the plant more efficiently for health, immunity, and vigor.

Warranty: JABB of the Carolinas, Inc. guarantees this product to contain the amount of active ingredients as described in this label and that the product will be as effective as intended if properly transported, stored, and applied per label instructions. All field complaints must be brought to the attention of JABB of the Carolinas, Inc. within seventy (70) days of planting. JABB of the Carolinas, Inc. makes no other expressed or implied warranty of fitness, warranty of merchantability, or warranty of a particular purpose, or any other express or implied warranty. JABB of the Carolinas, Inc.

liability of hereby expressly limited to the purchase price of this package only. In no event shall JABB of the Carolinas, Inc. or any seller of this product be liable to consequential, special, or indirect damages resulting from the use or handling of this product.

This product should not be used as a pesticide.
